THE INNOVATE DECK DIFFERENCE

Why Choose Us

When you hire us, you get more than a contractor — you get a dedicated partner committed to building something exceptional.

25+ Years of Experience

Over two decades of building premium decks and outdoor living spaces across New England. Our experience means fewer surprises and better results.

Quality Materials

Certified installers of Trex, TimberTech, and Azek. We use only premium-grade lumber and materials backed by industry-leading warranties.

Local Expertise

We build for New England weather. Freeze-thaw cycles, coastal salt air, heavy snow loads — our designs and materials are chosen to last in our climate.

Workmanship Warranty

Every project is backed by our craftsmanship guarantee. We stand behind our work because we know it's built to last.

CLIENT TESTIMONIALS

What Our Clients Say

Real feedback from homeowners who trusted us with their outdoor living projects.

★★★★★

"Innovate Deck completely transformed our backyard. We went with a Trex Transcend deck in Spiced Rum and it looks absolutely incredible. The crew was professional, showed up on time every day, and finished ahead of schedule. Our neighbors keep coming over to see it -- we've already referred two of them. Best home improvement decision we've made."

M — **Mike & Sarah T.**
Hingham, MA · Composite Decking

★★★★★

"We had an aging pressure-treated deck that was starting to feel unsafe. The team came out, did a thorough inspection, and gave us an honest assessment -- the substructure was still solid but the decking and railings needed to go. They replaced everything with TimberTech and cable railings. Saved us thousands compared to a full tear-down and it looks brand new."

J — **Jennifer L.**
Andover, MA · Deck Repair & Restoration

★★★★★

"Living on the seacoast, we needed a deck that could handle the salt air. Innovate Deck recommended Azek with stainless steel hardware and the result is stunning. It's been through two winters now and still looks like the day it was installed. They really understand coastal construction."

D — **David R.**
Portsmouth, NH · Composite Decking
